PROFESSIONAL SUMMARY

Undergraduate Computer Engineering student skilled in Python, object-oriented programming, and JSON with growing expertise in backend logic and problem-solving. Proficient in applying coding fundamentals through hands-on exercises and projects, with experience in designing efficient solutions and debugging applications. Strong foundation in data structures, algorithms, and software development principles.

EDUCATION

Pillai HOC College of Engineering, Raigarh, India
B.E CE, June 2028 (Computer engineering)

- **10th Grade:** [New English School, Kalamboli], Percentage: 86%
- **12th Grade:** [Sudhagad Education Society, Kalamboli], Percentage: 64%
- **Current Education:** Bachelor of Computer Engineering, **CGPA: [**6.48**]**, June 2028

WORK EXPERIENCE

Python & OOPs Learner | Aspiring Backend Developer
• Built Python programs applying OOPs for clean and reusable code.
• Implemented JSON parsing and data handling in practice projects.
• Strengthened problem-solving through coding challenges and debugging.

PROJECTS

ATM Machine | Python, OOPs
• Developed an ATM simulation with deposit, withdrawal, and balance inquiry features.
• Applied OOPs concepts to manage accounts and transactions securely.
• Improved reliability with PIN authentication and input validation.

Bus Tracking & Fee System | Python, JSON
• Built a system to manage student bus routes and fee payments with JSON storage.
• Automated route allocation and payment tracking, reducing manual errors.
• Improved efficiency of record-keeping for transportation and student payments.

Coaching Classes Management System | Python, OOPs
• Designed a tool for enrolment, attendance, and fee tracking.
• Applied OOPs for modular design of students, teachers, and schedules.
• Reduced manual workload by automating record maintenance.

TECHNICAL SKILLS

- **Technical Skills:** Python, Basic Data Structures & Algorithms (DSA)
- **Problem-Solving:** Complex problem solving, analytical thinking
- **Learning & Adaptability:** Self-learning, growth mindset, ability to quickly grasp new concepts
- **Business Acumen:** Understanding business problems and translating them into technical solutions
- **Leadership & Collaboration:** Team leadership, effective communication, and collaboration in projects

Tools & Platforms

- **IDE / Editors:** VS Code, Jupyter Notebook, Google Colab
- **Command Line / OS Tools:** Windows Command Line, Bash

CERTIFICATES

- **Cybersecurity Basics Awareness** – Mahindra Foundation (Skill India)
- **TCS ION Career Edge – Young Professional** – Tata Consultancy Services (TCS ION)
- **Data Science Basics** – Scaler
